THE SHOEMAKING HISTORY OF THE ARVAY FAMILY HAS BEEN WRITTEN FOR 100 YEARS

We are the heirs of the shoemaking legacy of the world's largest footwear manufacturer in the 1930s. Since the split of Czechoslovakia, we have been one of the leaders in research, development and production of work and safety footwear in Central and Eastern Europe for more than three decades. The quality standards of our products place us among the premium brands of work and safety footwear in Europe.

ARTRA brand represents our commitment to improving people's health, well-being and happiness. Its existence is firmly rooted in tradition and family values.

4

The story we are writing today at ARTRA is the story of four generations of shoemakers from the Arvay family. ¶ In 2026, ARTRA will reach a milestone that many entrepreneurs never get to experience. We will approach the 100th anniversary with pride and humility, contributing to preserving the memory of a rich shoemaking history for future generations of the Arvay family, our colleagues, business partners and consumers.

GENERATIONS OF SLOVAK SHOEMAKERS

100

YEARS OF SHOEMAKING TRADITION IN THE ARVAY FAMILY

1. GENERATION

L'UDOVÍT ARVAY
AUSTRIA-HUNGARY

* 1902

After completing military service in 1926, he started working as a **SOLE PRESSER** in Zlín, Moravia. In 1939, he stood alongside the footwear pioneer **JÁN ANTONÍN BAŤA** during the founding of footwear production and the shoemaking town of Batovany in Slovakia, later renamed Partizánske. In 1944, he participated in the Slovak National Uprising for liberation from the Nazis. Until 1950, he worked in *Baťa's shoemaking workshop*. From 1950, he worked in housing services and later as a member of the ZDA Partizánske factory guard.

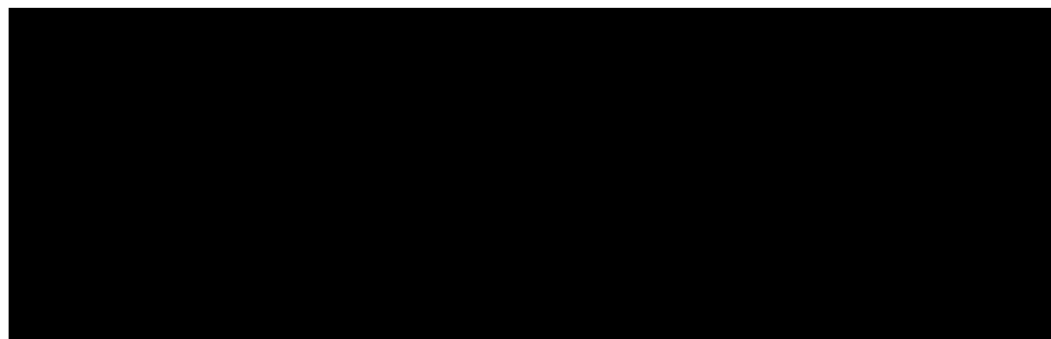

2. GENERATION

L'UDOVÍT ARVAY * 1932
CZECHOSLOVAK REPUBLIC

He was born into a shoemaker's family in Kostelec, Moravia. In his youth, he became a member of the *Baťa School of Work*. Baťa used the noble title **YOUNG MEN** for members of his school. Between 1951 and 1953, he completed his mandatory military service. From 1953, he served as a comrade in factory *ZDA Partizánske* in a managerial position. He was **HEAD OF THE STANDARDIZATION DEPARTMENT**, managing approximately 30 colleagues.

3.

GENERATION

IVAN ARVAY
CEO AND FOUNDER

* 1960

After graduating from a military high school, he completed his studies in 1984 at the *Faculty of Foreign Trade at the University of Economics in Bratislava*. Until 1991, he worked in the legendary shoemaking company *ZDA Partizánske* as **HEAD OF SALES FOR SHOEMAKING MACHINES AND COMPONENTS**. In November 1993, he founded the footwear company ARTRA, where he has been Chief Executive Officer for over three decades. He is responsible for production planning and company management.

ALENA ARVAYOVÁ
VICE CEO

* 1962

Graduating with honors from the *Faculty of Internal Trade at the University of Economics in Bratislava* in 1984, she began her career in the **SALES DEPARTMENT** of the *ZDA Partizánske* footwear factory, where she worked until 1993. She was present at the founding of ARTRA and also created the company's name. Today, she oversees software development and process architecture across all departments of the organization.

4.

GENERATION

MARTIN ARVAY
CHIEF SALES OFFICER

* 1986

After graduating from the *Faculty of Business Management at the University of Economics in Bratislava*, he continued his studies full-time at *Hult International Business School in Shanghai, China*, where he earned a **MASTER OF INTERNATIONAL BUSINESS DEGREE**. His journey with ARTRA began in 2012, taking on the role of sales representative for English- and German-speaking customers. Since 2017, he has been leading the company's sales strategy as Chief Sales Officer.

IVAN ARVAY
CHIEF BRAND OFFICER

* 1988

After graduating from the *Faculty of Commerce at the University of Economics in Bratislava*, he joined ARTRA in 2011 and has since shaped the visual and creative direction of the brand. As Chief Brand Officer, he is responsible for building a strong and consistent brand identity and image, while also leading the development of ARTRA's original, authorial product design.

PHYSICAL AND MENTAL HEALTH OF PEOPLE IS THE BEST INVESTMENT

Surveys show that due to the shortage of human labor, finding and retaining employees is becoming increasingly costly for companies. A proven way to address this challenge is by investing in employees' physical and mental well-being.

Employees who feel valued by their company tend to show greater loyalty to their employer and a higher willingness to work productively and over the long term. In the long run, this leads to cost reductions for the company.

HEALTH, WELL-BEING AND HAPPINESS AS A TRUE PRIORITY

22 OUR MISSION

ARTRA 2025/26 EN

Our mission is to deliver innovative and environmentally sustainable solutions in the footwear industry. We are here to help companies make the health, well-being, and happiness of their employees a true priority.

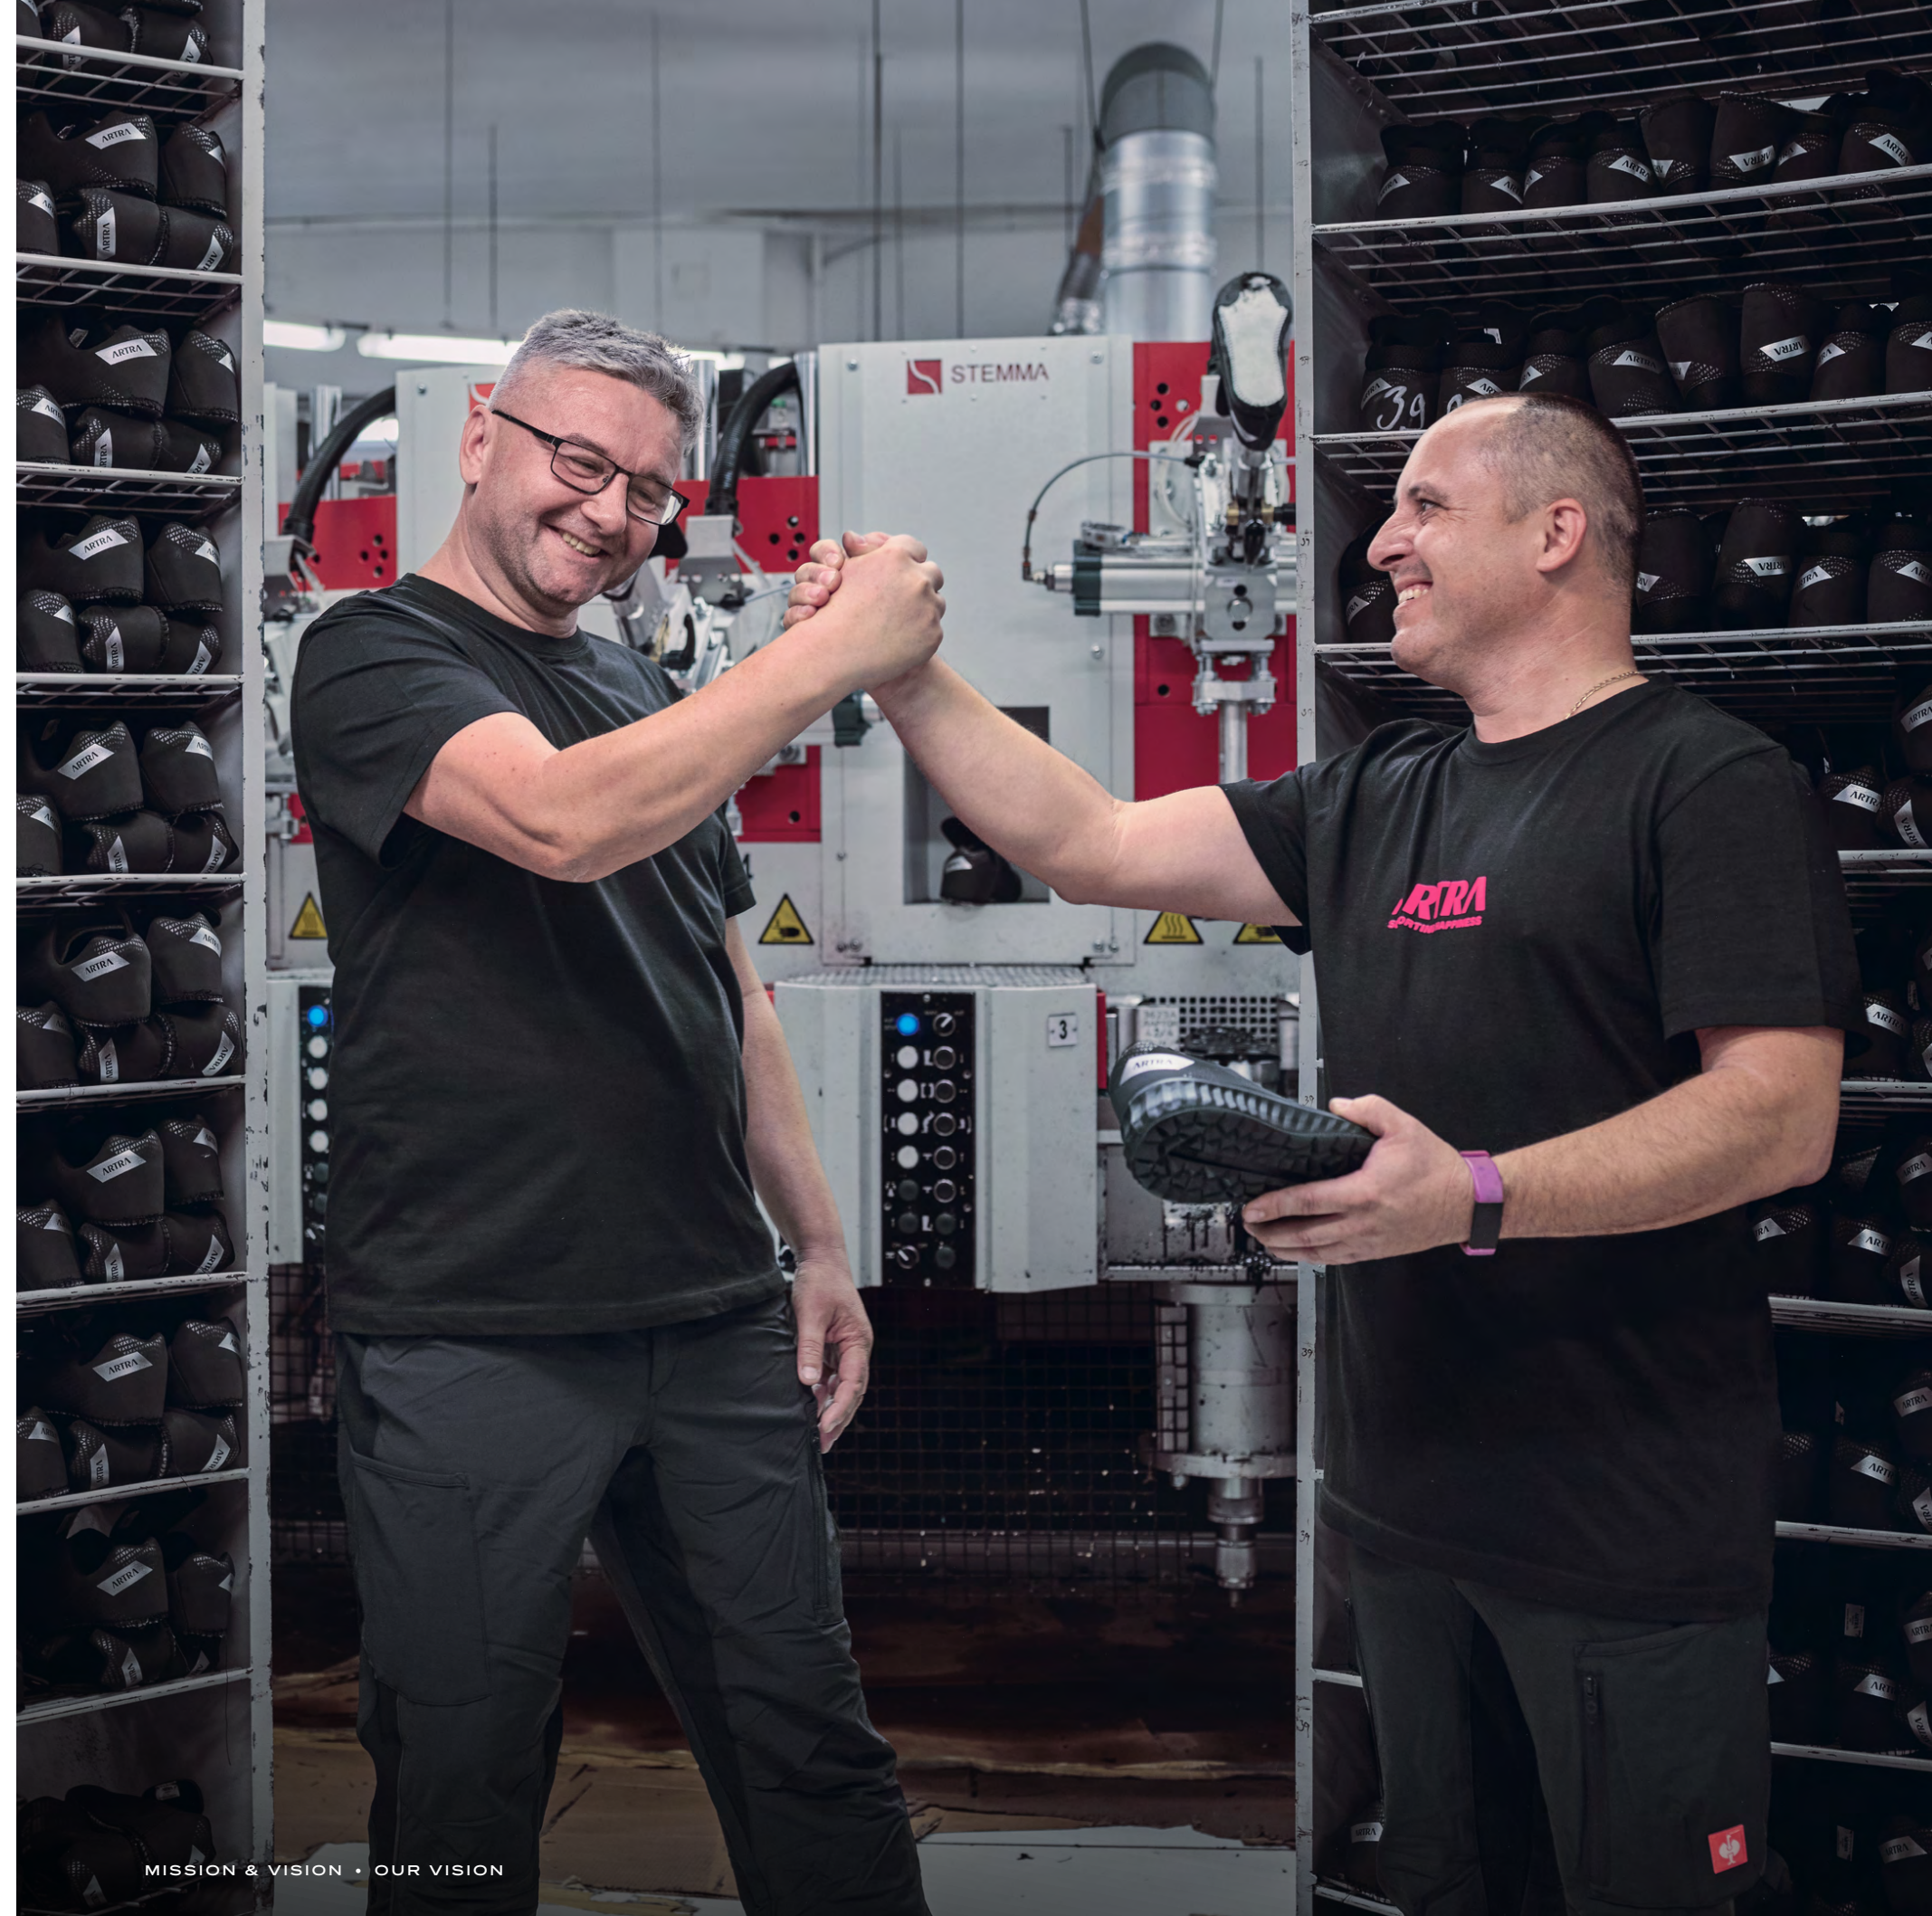

MISSION & VISION • OUR MISSION

SPONTANEOUS BRAND AWARENESS OF **ARTRA** IN EUROPE

24 OUR VISION

Our vision is spontaneous brand awareness in the minds of companies seeking solutions to support the health, well-being, and happiness of their employees. ARTRA will be perceived as a family-owned brand with a remarkable shoemaking tradition, while actively contributing to raising industrial standards in innovation and environmental sustainability in manufacturing across Europe.

THE STORY OF ARTRA IS NOT JUST A STORY OF EXCELLENT PRODUCTION AND A WELL-THOUGHT-OUT MODEL OF SERVING BUSINESS PARTNERS

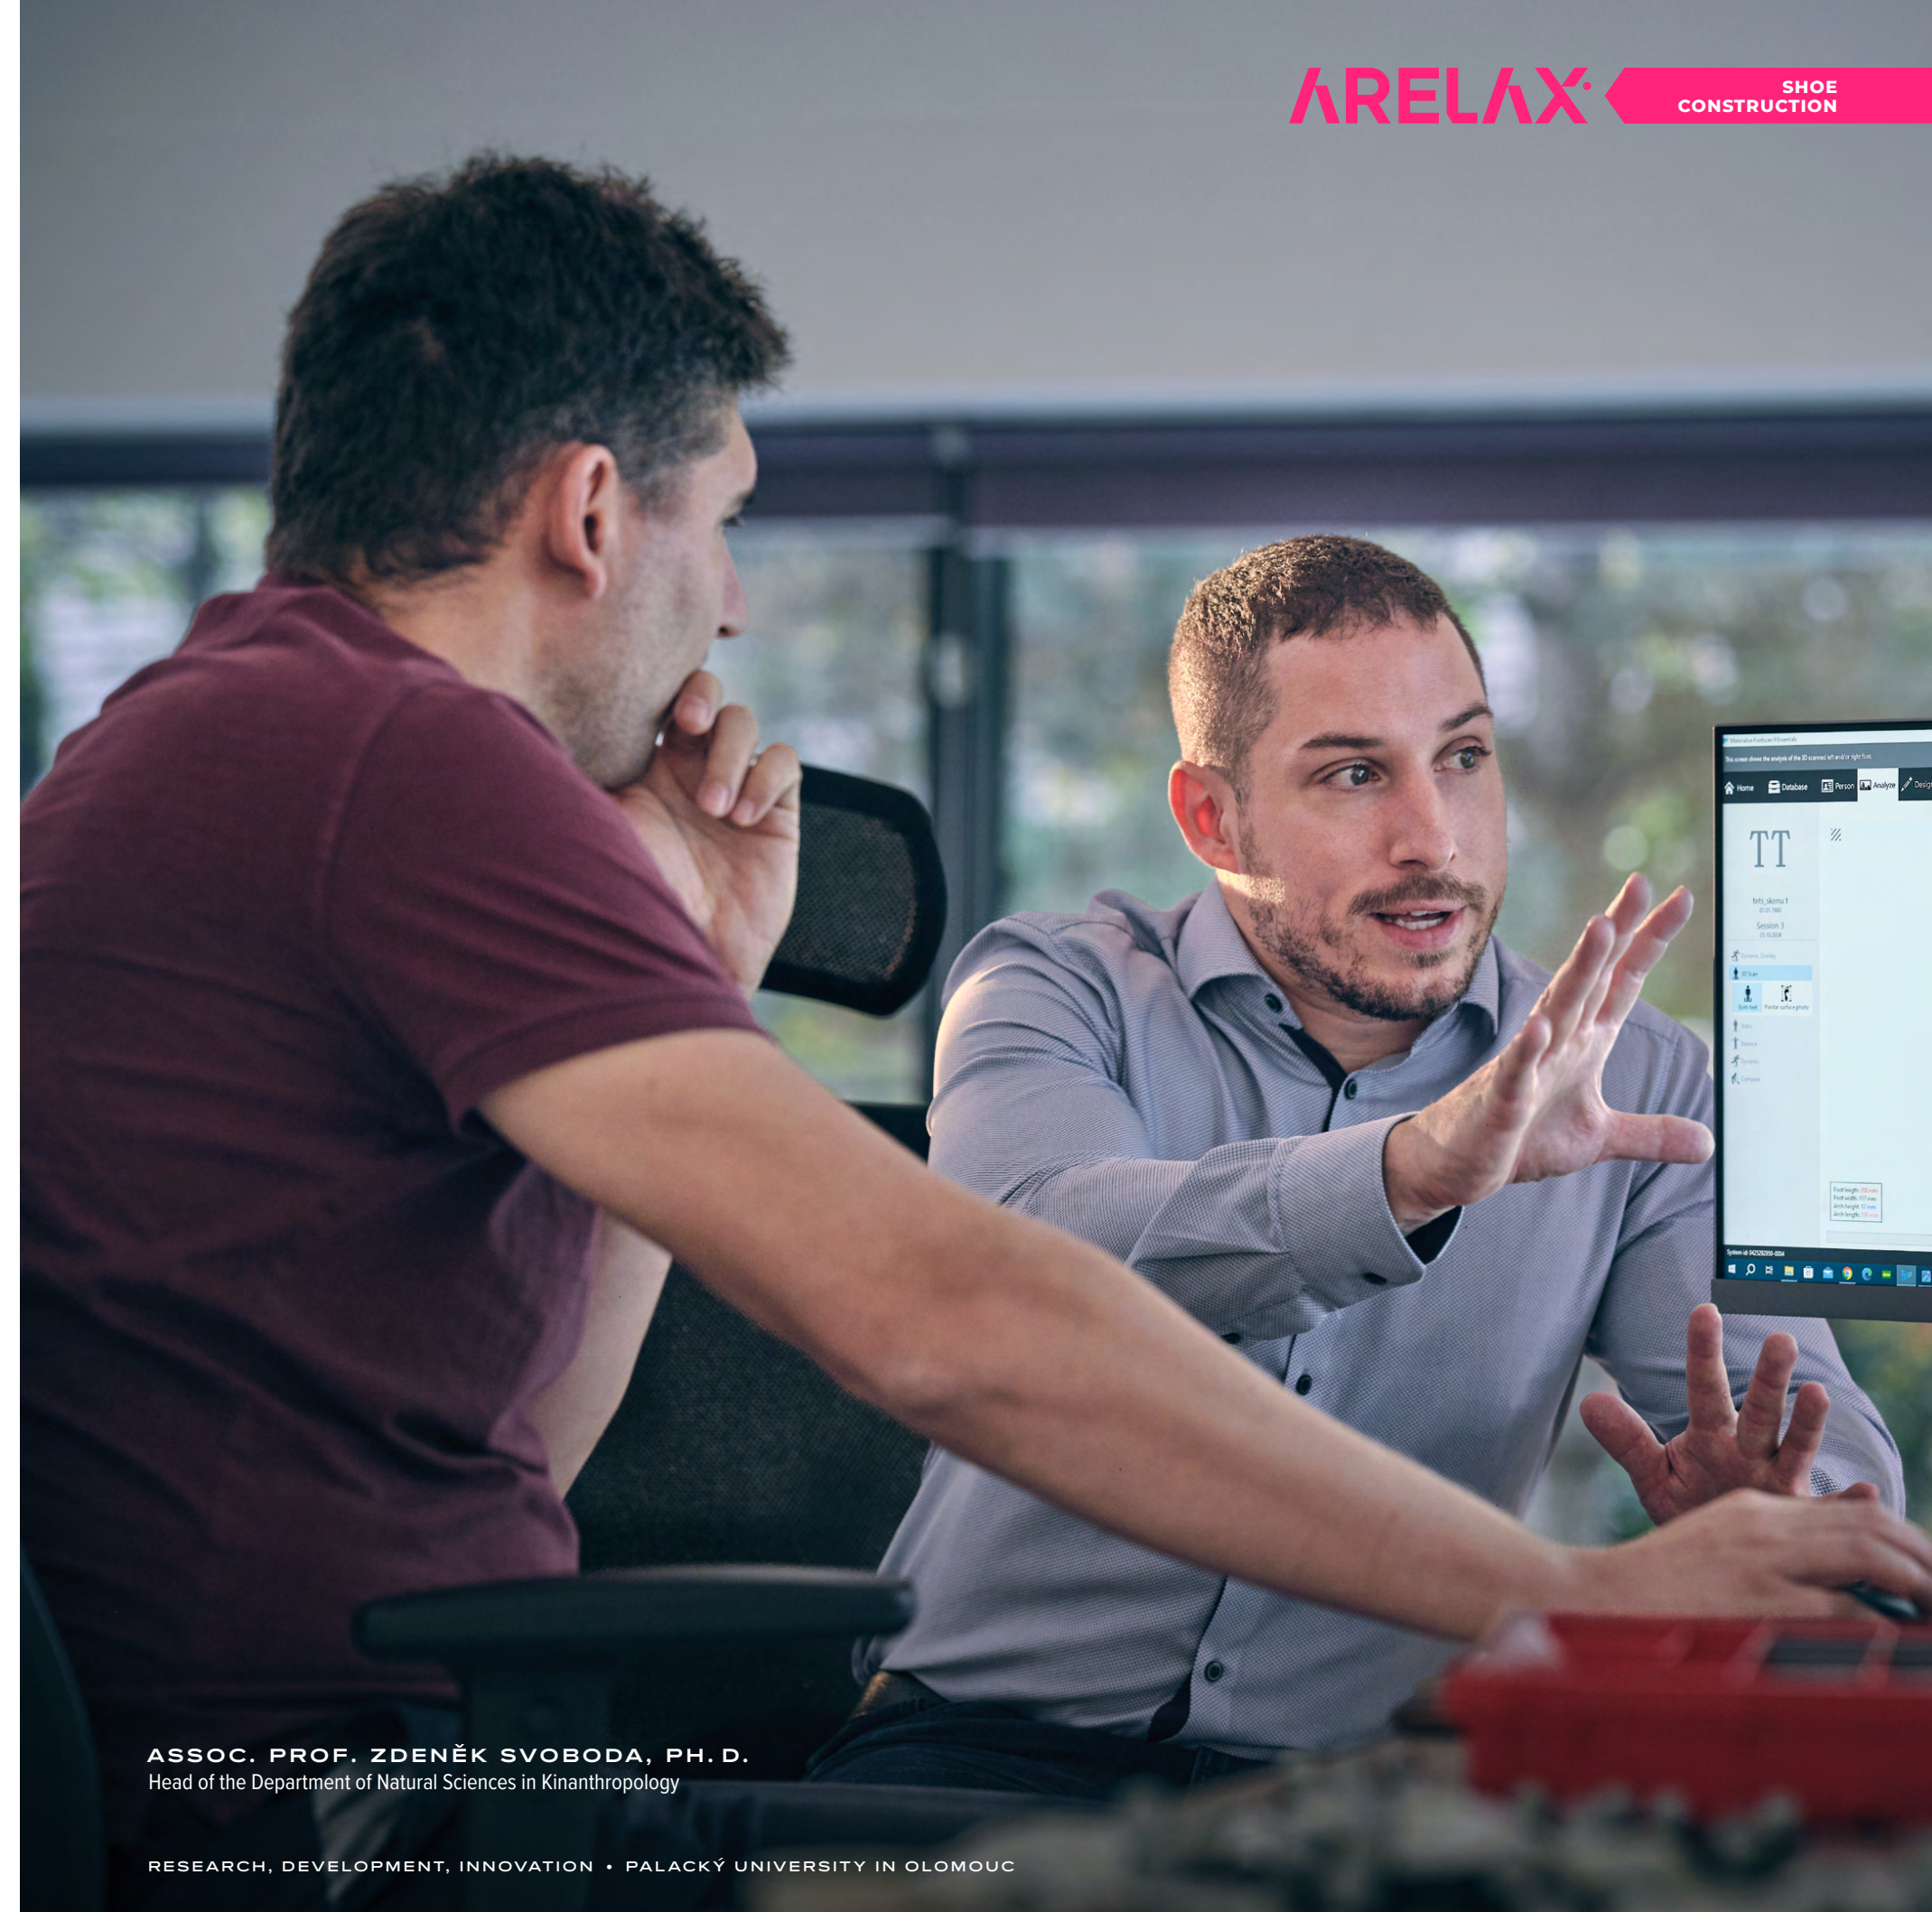

Research, development, and innovation themes pulse through the DNA of our brand just as strongly. We continuously improve and develop new YUM™ technologies that stand behind the unique ARELAX® shoe construction.

The ultimate goal of our development is to continuously perfect the ARELAX® shoe construction in order to create the most comfortable work and safety shoes in the world.

ARELAX® SHOE CONSTRUCTION ADVANCED BY THE EXPERTISE OF PALACKÝ UNIVERSITY IN OLOMOUC

ARTRA JOINS FORCES
WITH UNIVERSITY
28 IN THE CZECH REPUBLIC

In the field of research, development, and innovation, we rely on the long-standing expertise of specialists from the *Faculty of Physical Culture at Palacký University in Olomouc*. The Department of Natural Sciences in Kinanthropology, led by **ASSOCIATE PROFESSOR ZDENĚK SVOBODA, PH.D.**, provides both teaching and research in areas of kinanthropology that are closely connected with biomedicine, physical sciences, and human motor skills. ¶ The faculty is one of the leading scientific institutions in the Czech Republic, with a focus on human movement and a healthy lifestyle.

ASSOC. PROF. ZDENĚK SVOBODA, PH. D.
Head of the Department of Natural Sciences in Kinanthropology

IMPROVE YOUR PHYSICAL AND MENTAL HEALTH

RESEARCH AND DEVELOPMENT
OF ANATOMIC LASTS
30 FOR CENTRAL EUROPEANS

Shoes should respect the shape of the foot, not the other way around. Thanks to our collaboration with experts from *Palacký University in Olomouc*, we are once again taking the comfort of our footwear to the next level. 3D foot scans provide us with valuable data to ensure that ARTRA shoes with **ARELAX**® shoe construction deliver spacious and anatomical fit. ¶ The **ARELAX**® shoe construction provides room for all toes, ensures proper support and foot angle, and delivers a spacious and anatomical fit. It promotes correct posture of the spine and body, supports healthy walking mechanics, helps prevent foot and musculoskeletal disorders, protects health, offers durability and a long lifespan, and contributes to both physical and mental well-being.

YUM™ TECHNOLOGIES STAND BEHIND THE ARELAX® SHOE CONSTRUCTION

FEEL
YUUUM!

32

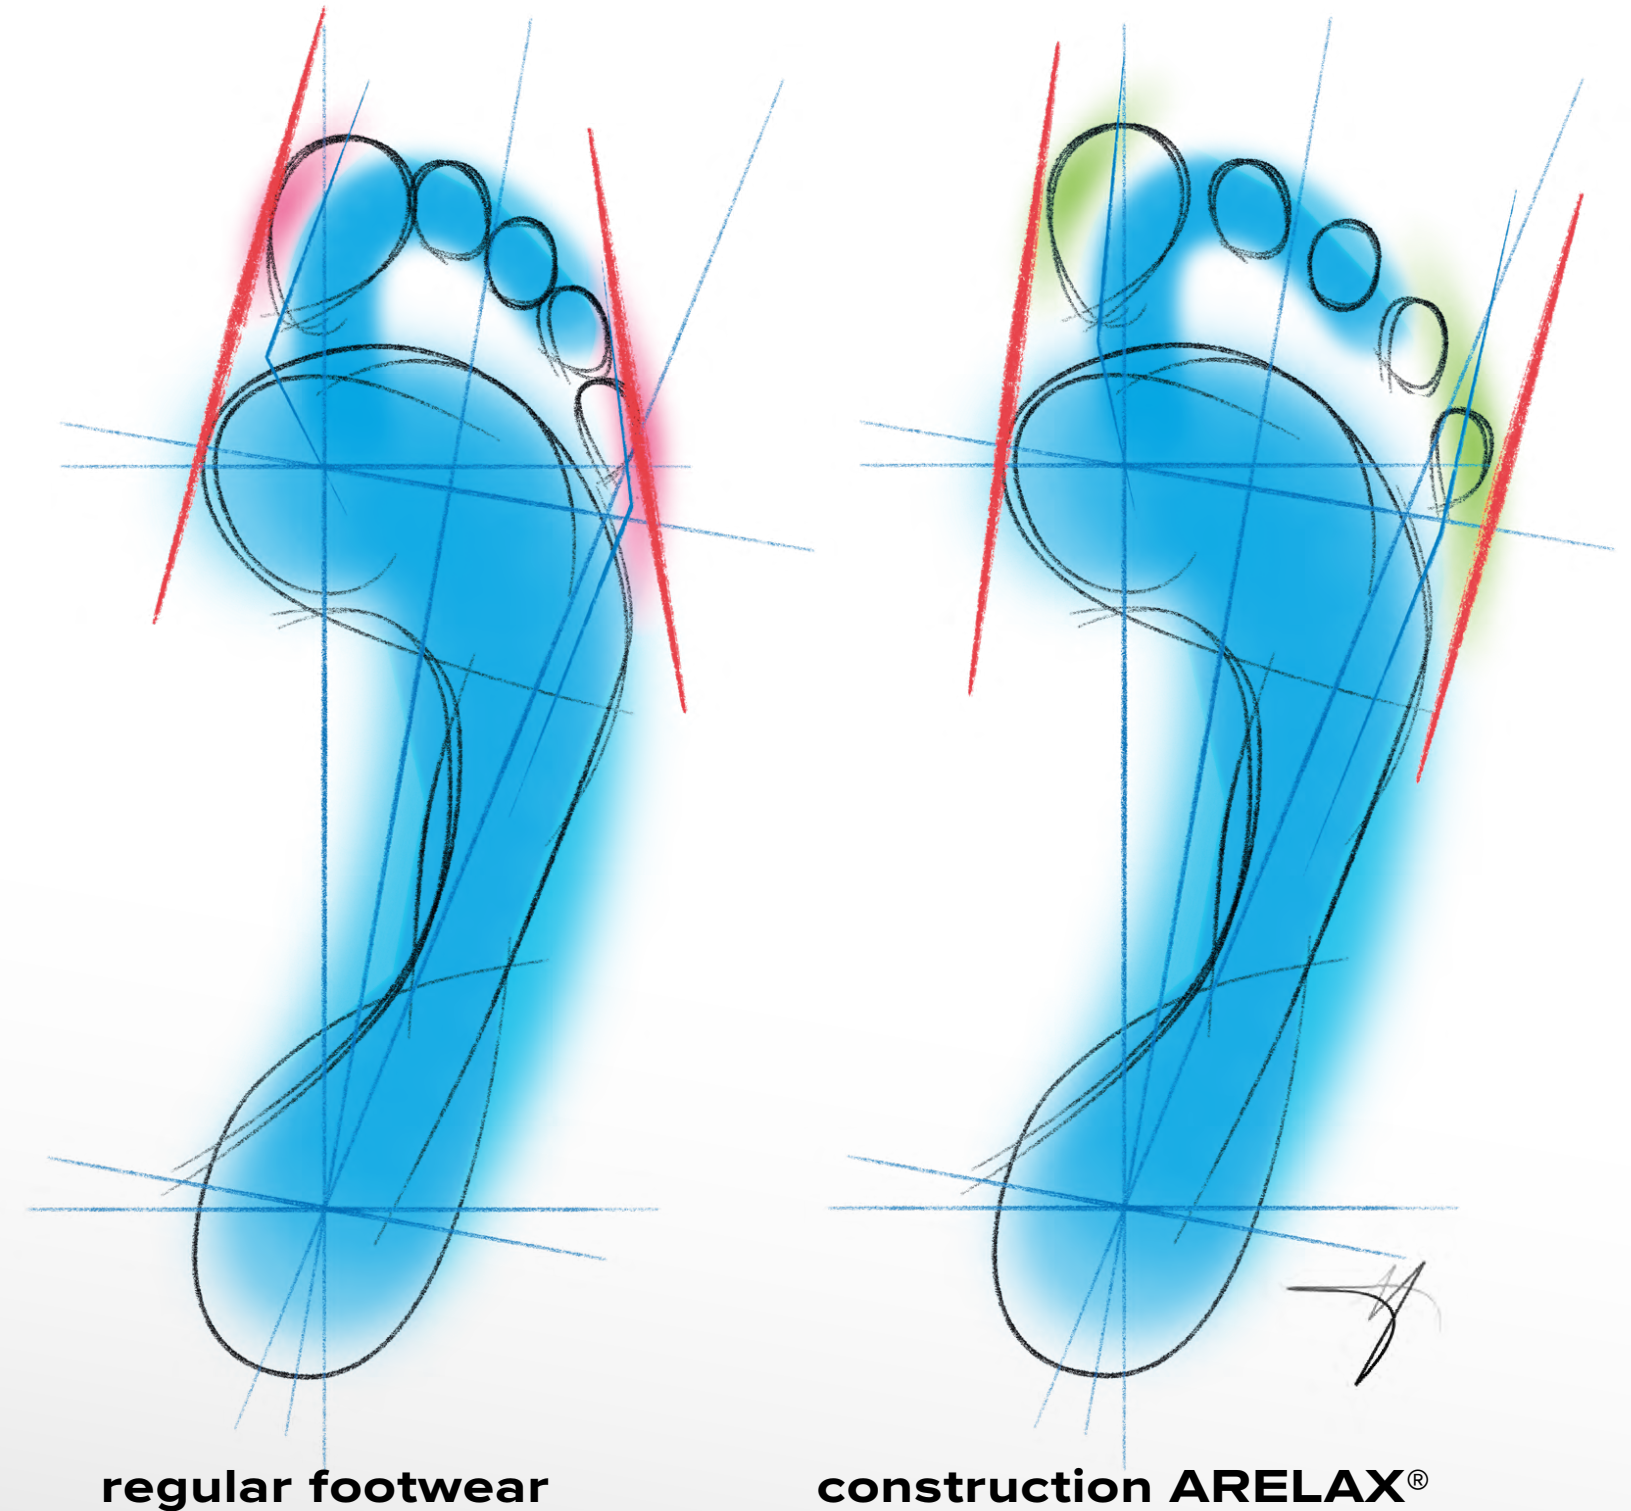

YUM™ technologies stand behind the ARELAX® shoe construction – designed to work together to create a feeling of health, well-being, and happiness. From the breathability of SKINYUM™, through the freedom of your toes with LIBERYUM™, all the way to the levitating sensation of LEVITARYUM™ – you will feel YUUUM!

LIBERYUM™

FREEDOM FOR LITTLE TOE AND WELL-BEING FOR YOU

34 **FINALLY,
ROOM FOR ALL TOES**

Surveys show that 63% of people who wear work and safety shoes complain about insufficient room for their toes. That's why we solved the issue by designing a wider toe box as a key element of the ARELAX® shoe construction. LIBERYUM™ safety toe caps allow toes to move freely, don't squeeze them, and provide enough space to relax. The result is better blood circulation, reduced fatigue, and an overall improvement in both physical and mental well-being.

SKINYUM™

YOUR SKIN NEVER STOPS BREATHING

36 MATERIALS WITH A 3D NETWORK OF AIR TUNNELS

SKINYUM™ upper materials contain microfibres that create a 3D network of breathable tunnels. Thanks to air circulation, your skin breathes continuously. ¶ Our 100% vegan materials with OEKO-TEX® certification are created in Europe – under our supervision and according to our specification. They are tested against a list of more than 1,000 harmful substances to protect your health and the environment.

LEVITARYUM™

YOU WON'T LEVITATE IT WILL FEEL LIKE YOU DO

42 DYNAMIC CUSHIONING FOR
RESPONSIVE ENERGY RETURN

A large volume of active material is working beneath your feet. Soft landings, energy return, and springy rebound. It feels like something is gently lifting you the whole time. Even after long hours, you still feel just as light as you did at the beginning.
LEVITARYUM™ – a technology that carries you
Not the other way around.

SOFTYUM™

SOFTNESS THAT CARRIES YOU

44 INSOLES WITH
ACTIVATED CHARCOAL

Did you know that our **SOFTYUM™** insoles are equipped with soft polyurethane foam with a trampoline effect for energy return, revitalising support, and joint health regeneration? ¶ The open-cell structure keeps your feet dry, while activated charcoal eliminates odour. Excellent antistatic ESD properties are achieved. 100% recycled composition supports ecological sustainability.

100 LARGEST
BUSINESS PARTNERS**

SAVE 20,000 KM AND 3 MONTHS

48 LOCAL PRODUCTION
IN SLOVAKIA

According to our data, a product delivered directly from our production site in Slovakia travels a route that is 20,000 km shorter to reach the European customer than goods originating in the Far East. This reduces the time from production to delivery by approximately 3 months. ¶ Transcontinental maritime transport is a major polluter of the environment. It is responsible for CO₂ emissions comparable to those of entire countries such as Germany or Japan. Sulphur and nitrogen oxide emissions from the burning of low-grade ship fuel pollute the air and contribute to ocean acidification. By relying on local production in Slovakia, we eliminate this environmental burden.

999 OUT OF 1,000 PAIRS EXCEED THE 24-MONTH WARRANTY PERIOD

OBSESSION
WITH QUALITY
50 AT 99,9 %

In the work and safety footwear segment, ARTRA achieves quality standards that even globally established sports footwear brands could envy. The complaint rate for our products does not exceed 0.1%. Moreover, 999 flawless pairs out of every 1,000 consistently surpass the 24-month warranty period – even in demanding work environments. We are truly obsessed with the pursuit of perfect quality. 11 At 99,9%.

FRESHLY MADE, EVERY DAY

52 500,000 PAIRS
PRODUCED ANNUALLY

Did you know that our success is in the hands of more than 220 experienced designers, pattern makers, shoemakers, sales representatives, and administrative team members? ¶ This organized orchestra works behind the scenes of production, creating more than 2,000 fresh pairs of work and safety shoes every day.

TRUSTED WIN-WIN RELATIONSHIPS

60 PERSONAL MEETINGS
AT YOUR ADDRESS

ARTRA shakes hands with its business partners in 34 European countries through a trained team of sales representatives. In the process of sales and customer care, we are proudly connected to the standards we have deliberately carried over from the last century. For us, a personal meeting is always more important than an online one, and we are happy to travel even 1,000 kilometers to meet our business partners.

- I. JOURNEY TO ZERO CARBON EMISSIONS**
- II. RESTORATION OF NATIONAL CULTURAL MONUMENTS**
- III. SUPPORT FOR BLIND AND PARTIALLY SIGHTED PEOPLE**

Our company's ESG policies reflect three of our core beliefs. The first is that one of the primary duties of socially responsible companies in the 21st century is to consider their role in saving the planet.

The second is preserving and nurturing our relationship with the history of the city and region where we live and do business.

And the third belief is that social responsibility must never become an empty phrase without meaningful substance that addresses the topic of social inclusion.

CULTURAL HERITAGE FOR FUTURE GENERATIONS

Did you know that in 2025 and 2026, we are planning to restore a national cultural monument in our hometown of Partizánske? This project is close to our hearts, as we care deeply about preserving cultural heritage for future generations. ¶ The restoration is being carried out in cooperation with architecture students from the Faculty of Architecture at Brno University of Technology in the Czech Republic.

HELP US SUPPORT PEOPLE WHO WERE NOT GIVEN THE GIFT OF SIGHT

68

We donate 3¢ from every pair sold to support people who are blind or partially sighted. With our annual production of 500,000 pairs, this adds up to a €15,000 yearly contribution to organizations that improve the lives of people with visual disabilities.

WE WISH YOU AND YOUR CHILDREN A MAGICAL EXPERIENCE

We wish you and your children an unforgettable experience full of magical stories and inspiration.

Since 2024, we have been a proud partner of the unique project **ROZPRÁVKY PRE MALÉ PASTELKY**, which spreads an important message about supporting blind and partially sighted people across Slovakia and its partner countries. This heartfelt initiative has captured many hearts and surpassed a stunning 2 million views on YouTube in 2025. ¶ ARTRA has become the main partner of an exceptional audio adaptation of **THE JUNGLE BOOK** by *Rudyard Kipling* – a gem of world literature. This timeless story of values, love, and loyalty in the Indian jungle has fascinated children and adults alike since 1895. With its unforgettable atmosphere, **THE JUNGLE BOOK** brings magical adventures and inspires a deeper understanding of nature and human relationships.

70

THE JUNGLE BOOK

Part 1

Part 2

THE JUNGLE BOOK

INCLUSION BETWEEN THE WORLD OF SIGHTED AND BLIND CHILDREN

As the main partner of this philanthropic project, which originally began as an audio adaptation on YouTube, we elevated the experience to an entirely new level – a cinematic version that gives blind and partially sighted children the opportunity to enjoy a true film experience directly in a movie theatre. Thanks to screenings held at the City Panoramic 3D Cinema in Partizánske in early May 2025, this project became a significant step forward in the inclusion of children with healthy vision and those who are blind. ¶ The main goal of this project is to strengthen mutual understanding and social inclusion between the world of sighted and blind individuals. The city of Partizánske has thus become the capital of the blind in Slovakia.

A photograph of a man with grey hair and glasses, wearing a black t-shirt, working on a vintage sewing machine in a workshop. He is looking towards the camera with a slight smile. In the background, another man is working at a similar machine. The workshop has green metal shelving units filled with various items. A large pink arrow graphic points from the left towards the text.

A woman with long dark hair, wearing a black t-shirt, is focused on examining a dark-colored shoe sole. She is holding it with both hands. In the background, a robotic arm with a welding torch is positioned over a workbench. Shelves filled with various shoe components and materials are visible in the workshop setting. A large, stylized pink letter 'A' is overlaid on the left side of the image.

WHY?

SUPPORTING HAPPINESS

We support companies, for whom the health, well-being and happiness of employees is a true priority.

HOW?

WE OPERATE PROMPTLY

100 years of shoemaking tradition in the ARVAY family

bold drive in development and innovation

award-winning product design – GERMAN DESIGN AWARD WINNER 2025

own local production in Slovakia

obsession with quality at 99.9 % – REASON FOR COOPERATION N° 1
ACCORDING TO OUR 100 LARGEST BUSINESS PARTNERS

999 flawless pairs out of every 1,000 consistently surpass the 24-month warranty period

500,000 pairs produced annually

220 experienced designers, pattern makers, shoemakers,
sales representatives, and administrative team members

150,000 pairs in stock

95 % of orders shipped within 24 hours – REASON FOR COOPERATION N° 2
ACCORDING TO OUR 100 LARGEST BUSINESS PARTNERS

trusted WIN-WIN relationships

journey to zero carbon emissions

restoration of national cultural monuments

support for blind and partially sighted people

WHAT?

ARELAX® SHOE CONSTRUCTION

expert knowledge of specialists from Palacký University in Olomouc, Czech Republic

anatomical lasts developed for Central Europeans

room for all toes

better blood circulation

proper support and foot angle

spacious and anatomical fit

correct posture of the spine and body

supports healthy walking mechanics

helps prevent foot and musculoskeletal disorders

health protection

high durability

long lifespan

protection of physical and mental health

safety toe caps LIBERYUM™ – Freedom for little toe. And well-being for you.

vegan microfiber SKINYUM™ – Actively breathes. Keeps feet dry.

sole technology LEVITARYUM™ – You won't levitate. It will feel like you do.

removable insoles SOFTYUM™ – Softness that carries you.

improvement of physical and mental well-being

The ultimate goal of our development is to continuously perfect the ARELAX® shoe construction in order to create the most comfortable work and safety shoes in the world.
